ExCam® IPP1275

Ultra-compact camera in a small housing

The ExCam IPP1275 is an ultra-compact varifocal camera designed for use in hazardous areas. It consists of a lightweight sensor unit for image capture combined with a main unit for image processing. For more information, please visit the download area on the [product page](#).

Broad certification landscape - various range of applications

The ExCam IPP1275 is certified in accordance with both European (ATEX) and international (IECEX) guidelines. The explosion-proof housing is approved for ATEX group II (gas and dust) for zones 1, 2, 21 and 22, including explosion group IIC / IIIC. It also has INMETRO, MASC, UKEX and other approvals. For more information, please refer to our [data sheet](#).

When is the ExCam IPP1275 the right choice?

You have a fixed area your camera should record? The IPP1275 is a cost-effective camera that is optimized for recording in a fixed field of view, a specific scene or at a specific distance. Flexible installation in confined spaces is easy thanks to the separate main unit.
